

Specifications:

agricultural machinery bearing
bushing low price high quality bush

Feature:

- 1.Periodical lubrication is necessary.
- 2.Excellent wear resistance and low coefficient of friction.
- 3.Excellent machanical strength and dimensional stability.
- 4.Good thermal conductivity.

Application:

- 1.water conservancy industries
- 2.Automotive industries
- 3.Agricultural machinery and rolling mills
- 4.Balance shaft sleeve
- 5.Car crane
- 6.Hydraulic cylinders

Agricultural ball bearing: 200NPPB Series

Motion(shanghai)Industrial Development Co.,Ltd
